The explanation for this exception to a general rule is multiform. It depends, first, on the personality of the actor who heads the interpreting company; then on an agreeable and uniform performance of every role in the cast of characters; then on a story which is of strong interest told with epigrammatic cleverness; and finally on a general mancleverness; and finally on a general man-agement of the dramatic accessories Another the writing of the dialogue.

But here all is sunshine when the curtain falls and this new play, unlike "The Climbers," neither begins with a funeral nor ends with a suicide.

The theme is the impotency of mere masculine force when at war with the stanch love of the feminine heart. Old as the subject is, it has rarely produced so good a result and has probably never been used with so much ably never been used with so much ingenuity. No one eise has ever given the stage a picture of American will like that Mr. Fitch draws in this play. "You've simply got to marry me"—this is the kind of wooing portrayed, and to the very last it is much to be doubted if the audience altogether overcomes its American liking for just this kind of a campaign. The play has manifestly fed on this interest rather than on the diet of commonplace romance offered by the young woman whose heart is involved and the self-effacing sweetheart who goes to fight in the Philippines. But the story depends for its charm most of all on the intimate affection it depicts between the heroine and her brother, a circumstance not at and her brother, a circumstance not at sons who assume a dignified air when all rare in life, but too rarely displayed German comedians come on the stage,

FOSTER'S BURLESQUERS PRESENT A GOOD SHOW

Fay Foster's company of burlesquers offers a good show at Kernan's Lyceum this week. The show is a burlesque entitled "The Dancing Missionary," in

to the general excellence of the performance.

The critical judgment of other cities has been that "Her Own Way" was not distinctively great in any of its attributes. This must be the finding of the Capital as well. Yet no critic anywhere can deny that the play is charming beyond most of its competitors, and that it will reasonably enjoy the ardent favor of playgoers of every class. The reasons are plain—its every element is human and the end is pleasing.
